

John Lewis

First intern

Really liked it working at John Lewis though. Well for me right I work like 3 days a week, I do like working as a door to minus, minus floor two, an just doing like products for beauty, retail and all sorts of stuff. Well I do get some support though but I just do work really independently.

Second intern

I work in catering, I do pot wash, floor and post an' I enjoy it, it's fun an' you are never alone.

Third intern

I work in clothes, I feel happy and comfortable.

Employee

Give them a chance, just give them a chance and take it from there and you'll be really surprised what skills the special needs students do have. Give it a try, yeah, don't be nervous, give it a try.
