

Sainsburys

Intern

I work here, Thursdays, er with my su support, an I got a little bit nervous when I first came, came here and I had my lunch in the canteen and everything was alright and I got, got all my job, got all my ice creams in the freezers, an all sorts down, down there. Favourite part of working like if Paul's not, not here I will work with Tracey. I'm really proud of myself.

Employee

Just a brilliant lad, I'll help him do anything, he come in here, didn't know how to do anything, now he can work wi' me, I can leave him on his own, he's absolutely brilliant, I don't have to, I don't have to support him, he can support himself now. At end of day everyone's equal, he's a good lad, they're all good lads what come through the door from Ravenscliffe. He talks to everyone right, as though he's worked here for years. Give them a chance, they're absolutely brilliant, you know what I mean, all they want is a chance, a change, an' it can change their life forever.

Employee

Erm my store manager actually approached me instore to ask if I would be you know happy to liase with Thelma from Ravenscliffe and with the students and obviously I took that on and have really enjoyed it. Think for staff it has a massive erm, impact erm in and around the store, in the canteen at lunchtime, you get feedback from customers erm so the whole, everything about is has a real positive effect erm for the students and for store, and getting the message out there, do it, its, you know it's rewarding, it's not, it's not massively time consuming it's just help ? but the reward out, does anything else you know that happens.
