

Subway

Intern

I do Thursdays, every Thursday and I work on a Saturdays and that's, that's twice a week, every, every week. I just erm, prep all the food, for the, all the workers, and everyone out there can come downstairs and get some more, and afterwards they do me erm a list that how many prepstuff I need to do and I do it straight away and put it in a chiller and afterwards they just come down get them and take them upstairs and serve, serve more customers. Working as erm as a team, you have to get used to all the stuff, you have to remember, the patterns, what you need to do and that stuff is time and speed.

Employee

We took ? on may' a couple of years ago now, and I think it just helps erm these sorts of students to get more, you know, experience in the big wide world really, and see what it's like in working placements, work environments, work in fast paces. It helps us out erm you know, on a Thursday and a Saturday ? just goes downstairs, does all my prep for me for the weekend. It helps them and it helps us to see what it's like erm working with people who you know, perceive things a little bit differently.
